Rohan Verma

Computer Science Student · Aspiring Software Engineer

rohan.verma.demo@example.com · Bengaluru, India · GitHub · LinkedIn

SUMMARY

3rd-year B.Tech CSE student who likes turning ideas into small, useful apps. Looking for a Summer 2027 software engineering internship.

EDUCATION

B.Tech, Computer Science & Engineering 2024 – 2028
Example Institute of Technology, Bengaluru · CGPA 8.7 / 10

Class XII (PCM) 2022 – 2024
Example PU College · 92%

EXPERIENCE

Web Development Intern, Demo Tech Solutions (fictional) May – Jul 2026

- Built 6 responsive pages for a client dashboard in React.
- Cut page load time by 40% by compressing images and lazy-loading.

Tech Lead, Coding Club, College coding club 2025 – now

- Run weekly DSA sessions for 60+ juniors.
- Organised a 24-hour campus hackathon with 30 teams.

PROJECTS

CampusCart (React, Node.js, MongoDB): A buy-and-sell marketplace for students on one campus: listings with photos, chat between buyer and seller, and search by category.

StudyBuddy Bot (Python, Telegram API, SQLite): A Telegram bot that reminds a class group about assignment deadlines and shares notes from a shared folder.

Smart Attendance (Python, OpenCV, Pandas): Marks attendance from a single classroom photo using face recognition, then exports a clean Excel sheet for the teacher.

Expense Splitter (JavaScript, HTML, CSS): Split trip and hostel expenses with friends; it works out who owes whom in the fewest payments.

SKILLS

Languages: Java, Python, JavaScript, C, SQL

Web: HTML, CSS, React, Node.js, Express

Tools: Git & GitHub, Linux, VS Code, Figma, Postman

Core CS: Data Structures, Algorithms, DBMS, OOP, Operating Systems

ACHIEVEMENTS

- Finalist, Smart City Hackathon 2025 (team of 4)
- Top 5% in a national coding contest, 2025
- Certified: Python for Everybody (online course)

Sample resume for a demo portfolio. Rohan Verma is a fictional person.
